

UltraGreen

Graduation is a pivotal moment, a defining step into your future. How large will your global footprint be as you progress forward?

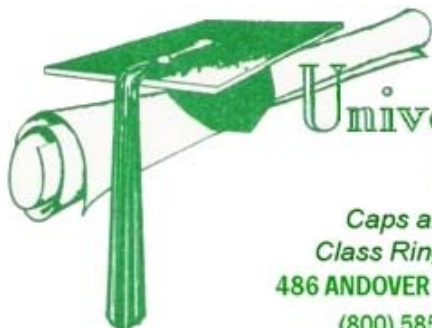

Our new UltraGreen fabric starts off as plastic bottles. After processing, the result is a lightweight and sturdy recycled fabric in rich black that you can wear with pride.

At University Cap & Gown we are doing all we can to lessen the impact on the environment.

For more information about our new **UltraGreen** outfits and other environment-friendly programs for colleges and universities, contact **Duane Fox** at
